

SANTA 2025

The annual Christmas celebration “Santa” was organized with the purpose of sharing the joy of the festive season with underprivileged children and this year, in a special way, with members from an old age home. The event aimed to spread happiness, love, and a sense of belonging to both the young and the elderly.

The celebration began with a prayer service conducted by our students, invoking God’s blessings and setting a spiritual tone for the program. This was followed by a Christmas dance performance, which added liveliness and festive cheer to the gathering. A short Christmas message presented through a skit was also performed by the students, reflecting the true meaning of Christmas—love, kindness, and compassion for others. The performance of Christmas carols further lifted the spirit of the celebration, filling the venue with warmth and festive cheer.

The celebration included various fun games and organized activities, creating an atmosphere of excitement and joy. All the children participated enthusiastically in the games, which brought smiles and laughter throughout the event. A cultural segment was also held, where the children presented their performances through dance and songs. Their talent and confidence added charm to the celebration and brought applause from everyone present.

A special moment of the event was a short message shared by one of the elderly members from the old age home. The message, filled with wisdom and warmth, touched everyone and added deeper meaning to the celebration.

After the activities, a special lunch was served to all the participants including the children and elderly guests. Volunteers ensured that everyone enjoyed the meal with comfort and warmth.

To make the celebration memorable, Christmas gifts were distributed to the children and the members of the old age home. The joy and gratitude on their faces reflected the true spirit of Christmas—giving and sharing.

The “Santa” celebration is conducted every year, but this year was especially meaningful as it brought together two generations, creating a bond of care and compassion. The event beautifully captured the essence of Christmas and left everyone with memories of happiness and togetherness.
